Goals and Principles

Overall Goal: To understand, coordinate, and support the growth and effectiveness of Locally Operated Transit Systems (LOTS) within the Baltimore region, improving regional connectivity and rider experience.

Guiding Principles: Collaboration, data-driven decision-making, regional perspective, focus on rider needs, and respect for local autonomy.

BRTC

Key Considerations and Coordination

Regular Communication:
Establish a clear communication channel between the work group, LOTS operators, MTA, and other stakeholders.

BRTC

Key Considerations and Coordination

Data Sharing: Develop a system for sharing data and information among LOTS operators and the MTA.

Key Considerations and Coordination

Technical Assistance: Explore opportunities to provide technical assistance to LOTS operators on planning, operations, and funding.

BRTC

Key Considerations and Coordination

Policy Recommendations: Develop policy recommendations for the BRTC and other decision-makers to support LOTS coordination and growth.

BRTC

Potential Priorities

1. Current and future service coordination

2. Fare integration among systems

3. Rider experience for LOTS

4. LOTS Funding

5. Opportunities for expansion and enhancements

BRTC

Moving Forward

Set the date for our 3rd workgroup meeting in late March to early April timeframe

BRTC

Moving Forward

Increased coordination with MTA-OLOTS and our five LOTS providers
