# *Goals & Strategies for Resilience 2050*

- Goal: Broad aspiration or guiding principles for the region
- Strategies: approaches or policies to aid implementation of goals
- In developing goals and strategies, these items were considered:
  - Federal, State, Regional, and Local requirements and policies
  - Factors that could affect how the region's transportation system will perform over the next 25 years

# Regional Goals

Goals that address the basic functions of transportation:

- **Improve Accessibility** - Identify and support multimodal options and systems that promote equity and enable all individuals to reach their destinations safely and seamlessly
- **Increase Mobility** - Help people and freight to move reliably and efficiently

Goals that address the transportation decision making process:

- **Foster Participation and Cooperation Among Stakeholders** - Enable all interested and affected parties to participate and cooperate to find workable solutions
- **Promote Informed Decision Making** - Ensure that adopted transportation policies and performance measures guide the regional decision making process

# Regional Goals

Goals that *address the conditions or effects* of transportation:

**Improve System Safety** - Reduce the number of crashes, injuries, and fatalities experienced by all users of the transportation system toward meeting Zero Deaths Maryland

**Improve and Maintain Existing Infrastructure** - Improve the condition of existing transportation facilities; systematically maintain and replace transportation assets as needed

**Create an Environmentally Responsible Transportation System** - Pass on to future generations the healthiest natural and human environments possible

**Improve System Security** - Provide a secure traveling environment for everyone; improve the region's ability to respond to natural and human-caused disasters

**Promote Prosperity and Economic Opportunity** - Support the vitality of communities and businesses, opportunities for workers, and the movement of goods and services within and through the region
