Adopt fix-it-first, climate-resilient, sustainable transportation priorities

Sustainable land use, transit, and a fix-it-first and resilience-first approach to the state's transportation and infrastructure spending is essential for Maryland's future.

Maryland Matters / Oct 17

MDOT, Maryland Economic Development Corporation work to develop TOD areas along MARC Penn Line...

The new strategy will help drive economic growth in underserved communities and advance transit-oriented development statewide.

Mass Transit

The cost of inaction: Why Maryland must invest in its transportation future

Deferring maintenance and needed improvements to Maryland's public transportation infrastructure is, as we stand, past due. We are not merely dealing with roads and bridges but the economic lifeblood of the state.

Maryland Matters / Oct 9
