# Masonville Cove Multimodal Transportation Feasibility Study

# Masonville Cove Multimodal Transportation Feasibility Study

- Masonville Cove is owned by the Maryland Department of Transportation Port Administration (MPA) and is designated as an Urban Wildlife Refuge by the US Fish and Wildlife Service.
- This project will undertake a multimodal pedestrian access study to identify opportunities for enhanced public access to Masonville Cove.
- Safe pedestrian access from nearby communities is challenging due to nearby road and rail infrastructure.

# Masonville Cove Multimodal Transportation Feasibility Study

- This phase of the project is funded by the Federal Highway Administration through the Federal Land Access Program (FLAP) with 20% matching from US Fish and Wildlife Service.
- The Study will cost approximately \$153,000.

# Masonville Cove Multimodal Transportation Feasibility Study

- The Maryland Port Administration is coordinating this study.
- The study is expected to take approximately 6 months to complete.
- For more information on this project:
